

# Parking Lot Garden

# Plan of Work

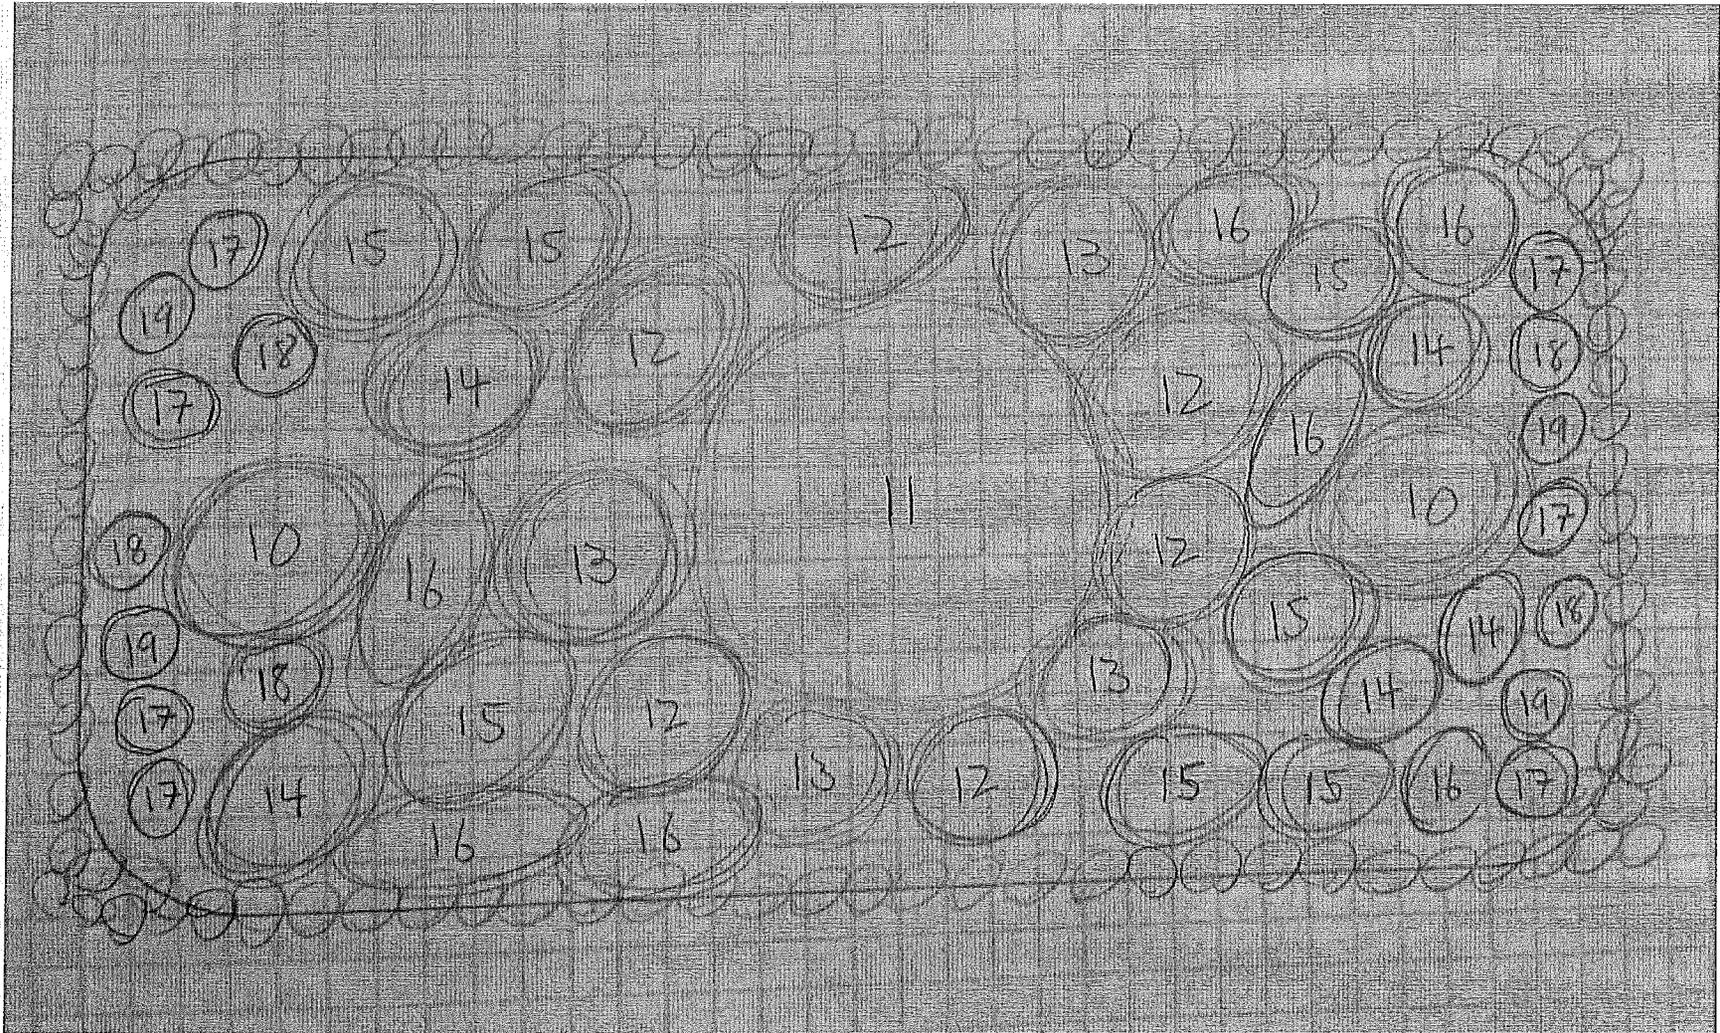

- **Dirt Removed**

- 2' 6" of dirt removed from the high end
- 6" of dirt removed from the low end (closest to pole)
- Make sure the site is level after dirt is removed
- Place excess dirt in a pile near the site (We will be using the excess dirt later)

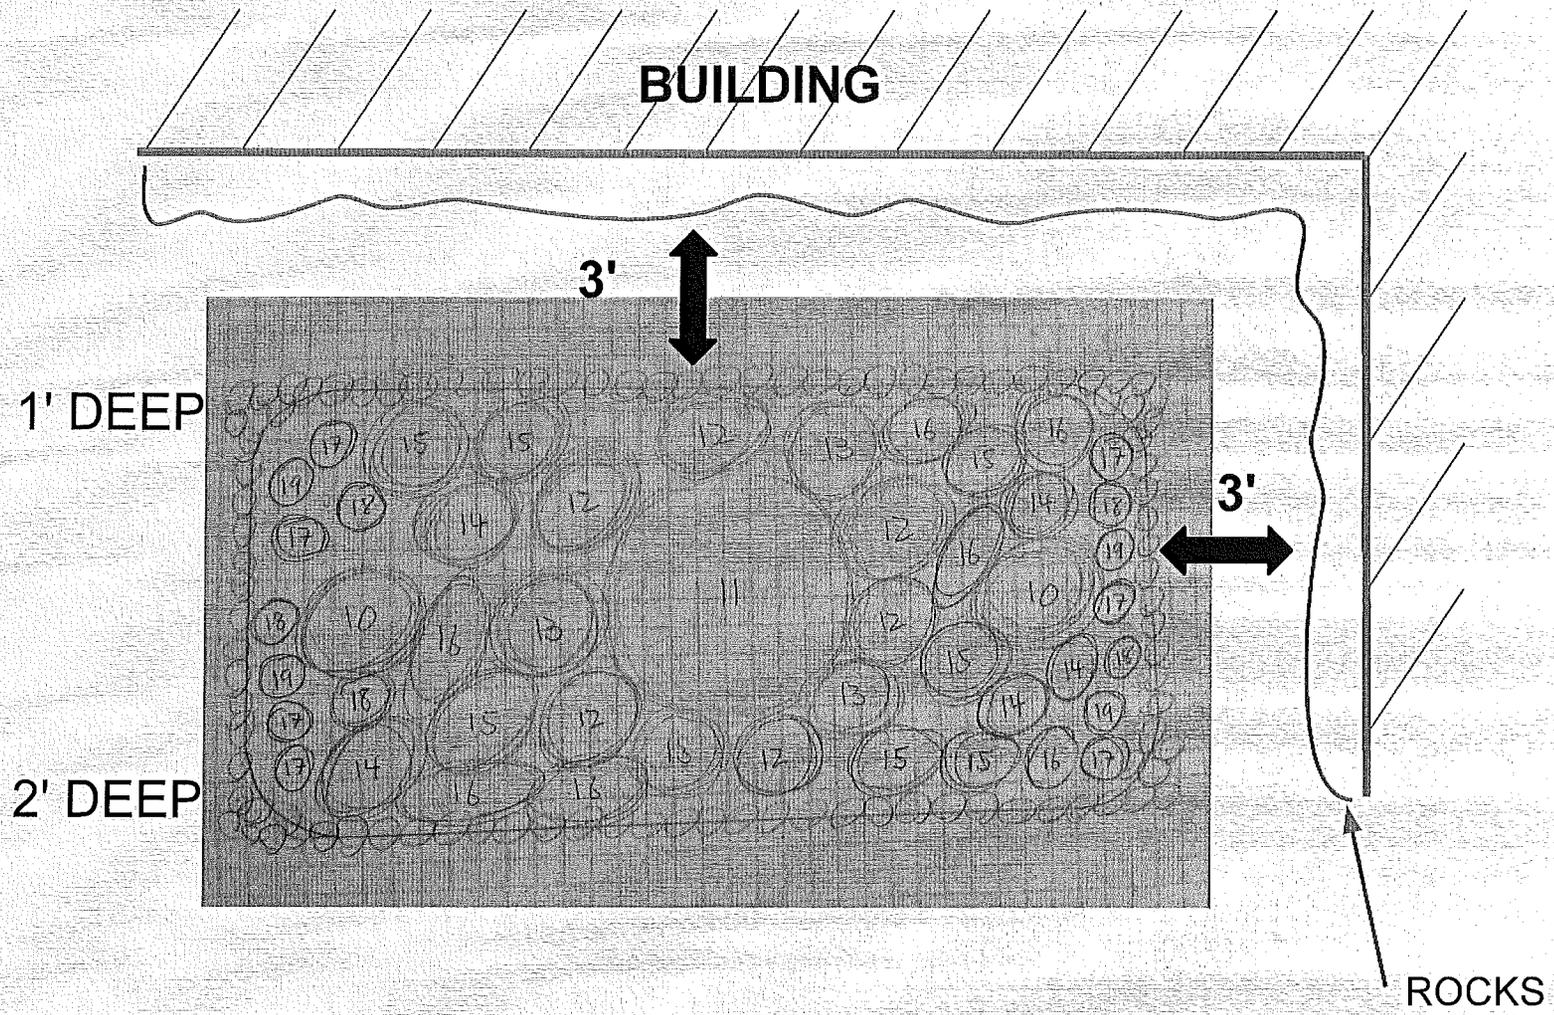

- **Move Rocks**

- 1' of rocks coming out of the parking lot
- Place remaining rocks in a pile near the site (We will be using them later)

# Building Garden

# Depth & Position

# Plan of Work

- Remove Dirt
- dig hole 10' x 21' wide
  - 2' 6" deep
  - 3' from the rocks
    - place excess dirt in pile near site
    - Excess soil will be used in other site
